Household spending on **services** rose 0.4%, following a 0.2% gain in the third quarter.

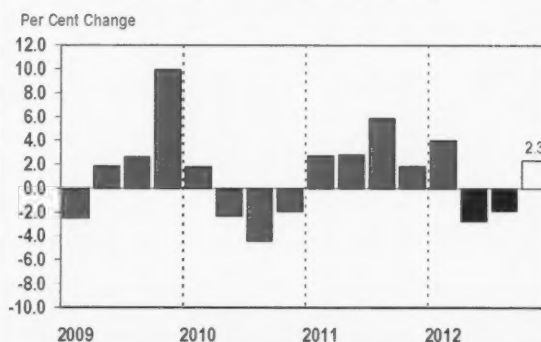

Real Consumer Spending Continues in Fourth Quarter

RESIDENTIAL CONSTRUCTION SPENDING INCREASES IN FOURTH QUARTER

Real residential construction investment spending rose a solid 2.3% in the final quarter of the year, after declines of 1.9% and 2.7% in the third and second quarters. Both new home construction (+3.3%) and renovation activity (+2.6%) were higher in the fourth quarter, while home ownership transfer costs (-0.6%), fell for the third consecutive quarter.

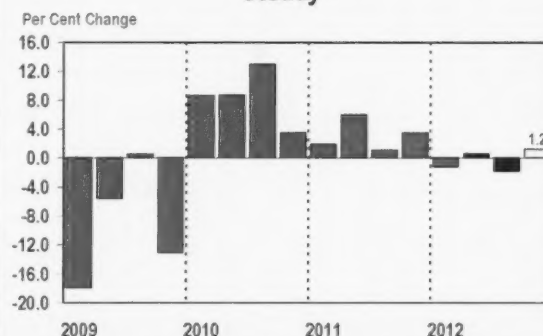

Real Residential Construction Advances in Fourth Quarter

HIGHER BUSINESS INVESTMENT IN PLANT AND EQUIPMENT

Capital spending by Ontario businesses on plant and equipment increased 1.4%, following a 1.3% decline in the third quarter. Investment in **non-residential construction** advanced 1.5% while **machinery and equipment** spending increased 1.2%, rebounding from a 1.8% decline in the third quarter.

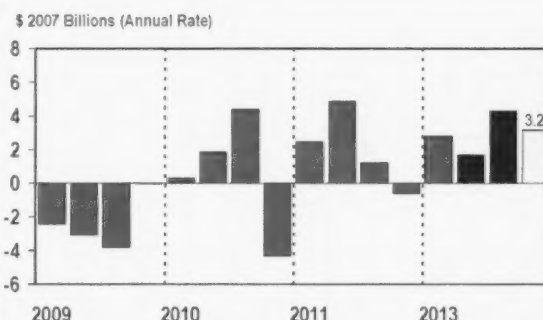

Real Machinery and Equipment Investment Steady

BUSINESS INVENTORY ACCUMULATION MODERATES

Businesses increased **inventories** by \$3.2 billion in the final quarter of 2012, after accumulating \$4.3 billion in the third quarter. Retailers and wholesalers increased inventories while manufactures reduced stocks. Retail car dealers reported a rise in stocks while auto wholesalers held lower inventories.

Change in Business Inventories

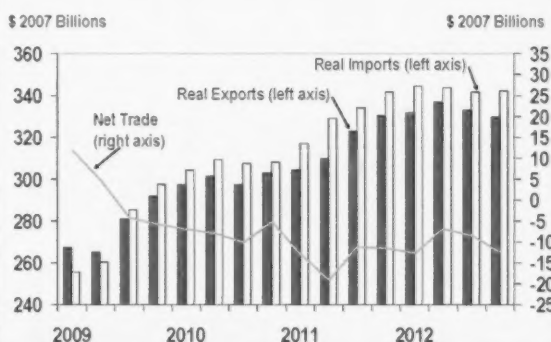

EXPORTS FALL WHILE IMPORTS EDGE HIGHER

Real exports of goods and services declined 1.0%, after falling 1.1% in the third quarter. **Real imports** edged 0.2% higher, after falling in the previous two quarters.

International merchandise exports continued to weaken, falling 1.9%, after declining 2.2% in the third quarter. The main sources of the overall decrease in goods exports were metal and non-metallic mineral products, chemical and plastic products and electronic equipment exports. Gains in automotive products and industrial machinery exports helped moderate the overall merchandise goods decline.

Exports Decline – Imports Edge Up

International merchandise imports increased 0.9%, following two consecutive quarterly declines. Rising industrial machinery and electronic equipment imports were the main sources of the overall gain. Lower energy imports limited the overall import rise.

External trade was the primary drag on the economy in the fourth quarter, largely reflecting lower exports.

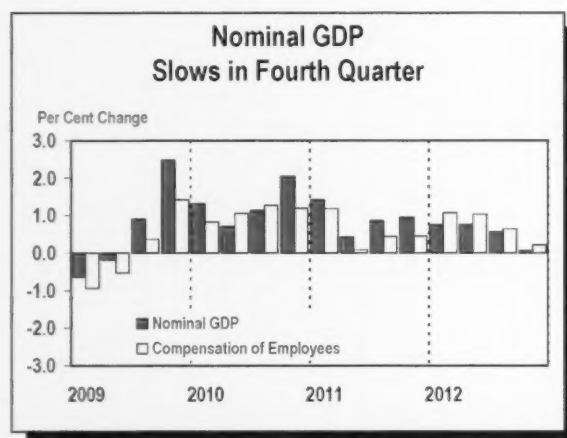

CURRENT DOLLAR GDP SLOWS IN FOURTH QUARTER

Gross Domestic Product measured in current dollars edged up 0.1% in the fourth quarter, down from a 0.6% third quarter gain. Modest gains in employee compensation, corporate net operating surplus, and household rental income supported nominal GDP in the fourth quarter.

Employee compensation (formerly labour income) edged up 0.2% in the fourth quarter.

Household disposal income was unchanged in the fourth quarter, after a 0.1% gain in the previous quarter. Current dollar consumption (+0.5%) outpaced disposable income pushing Ontario's household saving rate*, (the ratio of saving to household disposable income) down to 2.6% in the fourth quarter from 3.0% in the third quarter.

The net operating surplus of corporations (largely corporate profits), edged up 0.2%, matching the third quarter rise.

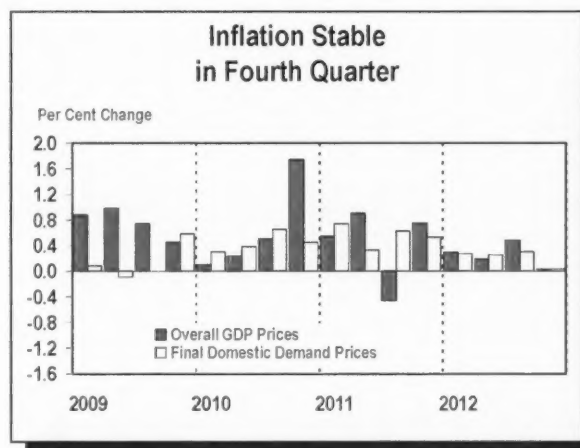

***Note:** Household saving is calculated in the System of National Accounts as the difference between the amount households receive as current income and their outlays for taxes and personal consumption.

PRICES UNCHANGED IN FOURTH QUARTER

Economy-wide prices, as measured by the **GDP implicit price index**, were unchanged in the fourth quarter, after rising 0.5% in previous quarter. The implicit price index for final domestic demand was also unchanged in the final quarter of the year.

Prices for **personal consumer expenditures** were unchanged for the second consecutive quarter.

Prices for motor vehicles and parts, other durable products, and pharmaceuticals and personal goods, all declined in the quarter. Higher natural gas and gasoline prices offset these declines.

Machinery and equipment prices declined for the second consecutive quarter, falling 0.8% after dropping 2.1% in the third quarter. **Non-residential construction prices** rose 0.5%, while **residential construction prices** advanced 1.1%, reflecting higher costs for new housing construction and renovation activity.

Export prices edged up 0.1% while **import prices** (0.0%) were unchanged in the fourth quarter. The Canadian dollar appreciated a modest 0.4% against the U.S. dollar, remaining close to par during the quarter. This contributed to stable Canadian dollar prices for both exports and imports.

ONTARIO PRODUCTION BY INDUSTRY

HIGHLIGHTS

Real output by industry was unchanged in the final quarter of 2012, following a 0.1% gain in the third quarter. Output in the goods-producing sector declined 0.4% while service sector output edged up by 0.1%.

The real estate (+0.8%), utilities (+5.7%) and construction (+0.9%) sectors all made positive contributions to fourth quarter output. Production was lower in the manufacturing (-2.0%), arts, entertainment and recreation (-5.8%) and information and culture (-0.8%) sectors.

MANUFACTURING OUTPUT DOWN

The manufacturing sector's output was 2.0% lower in the fourth quarter, following a 0.5% decline in the third quarter.

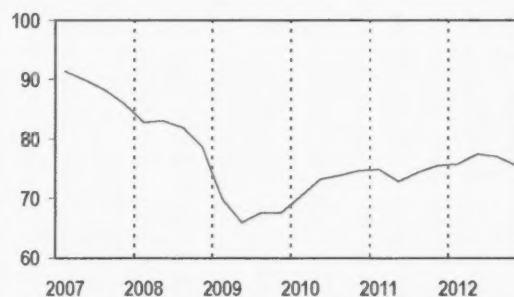

The fourth quarter decline was wide-spread, with nine of eleven manufacturing industries reporting lower production. The transportation equipment (-3.4%), electrical and electronic (-6.0) and primary and fabricated metal (-2.8%) product industries posted notable declines.

Within the transportation equipment sector, auto industry production fell by 3.7% following five consecutive quarterly gains. Production in "other transportation equipment", primarily composed of the aerospace sector, declined by 2.2% in the quarter.

Partially offsetting these declines were growth in the paper products and printing (+4.8%), and chemical and petroleum products (+0.6%) industries.

WHOLESALE AND RETAIL TRADE

Wholesaling activity rose 0.2% in the fourth quarter, following similar gains in the previous two quarters. Solid gains were reported by wholesalers of motor vehicles and machinery.

Production in the retail trade sector increased 0.1% following a 0.5% gain in the third quarter. Higher output of food, health and personal care and motor vehicle retailers was moderated by declines at general merchandise and sporting goods, hobby, book and music stores.

UTILITIES, CONSTRUCTION AND NATURAL RESOURCES

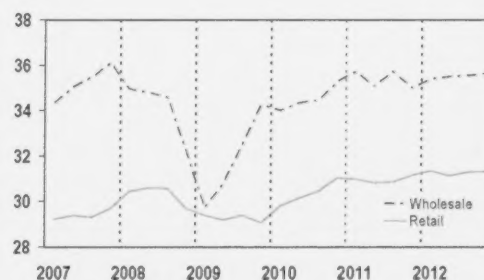

Utilities output advanced 5.7% in the fourth quarter, following a 3.7% decline in the previous quarter. Output of electric power posted a solid 8.7% increase while production by natural gas and water distribution utilities declined 2.7%.

Construction sector output rose 0.9%, offsetting a 0.9% decline in the third quarter. Residential construction increased by 2.2% while non-residential and engineering construction was unchanged.

Mining output edged up 0.4% following a 6.9% decline in the third quarter. Higher output at copper, nickel, lead and zinc mines supported fourth quarter growth.

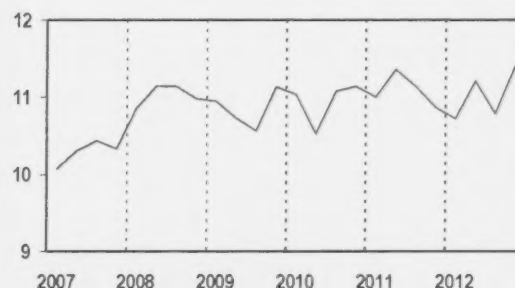

Wholesale and Retail Output

Utilities Sector Output

\$ 2007 Billion

Construction Sector Output

Note: Construction industry output is measured by the value added of the industry. Construction investment, as reported in the expenditure-based GDP accounts, measures the spending on new construction projects.

FINANCE, INSURANCE, REAL ESTATE AND LEASING

Output in the finance and insurance sector advanced 0.2% in the fourth quarter, following a 0.9% gain in the third quarter. Strength in the banking sector was partially offset by lower insurance industry output.

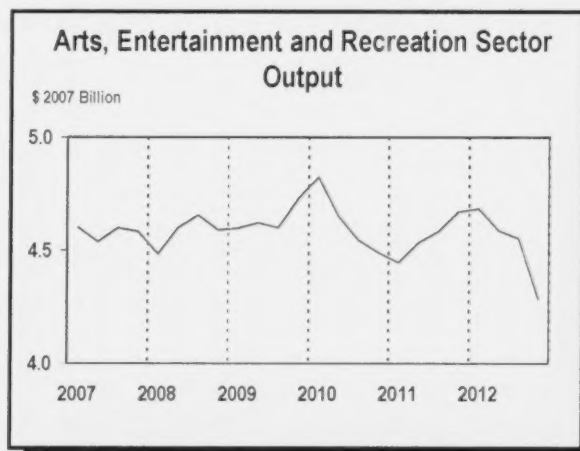

Production in the real estate and leasing sector rose 0.8% in the fourth quarter, following a 0.7% gain in the previous quarter.

OTHER SERVICE SECTOR INDUSTRIES

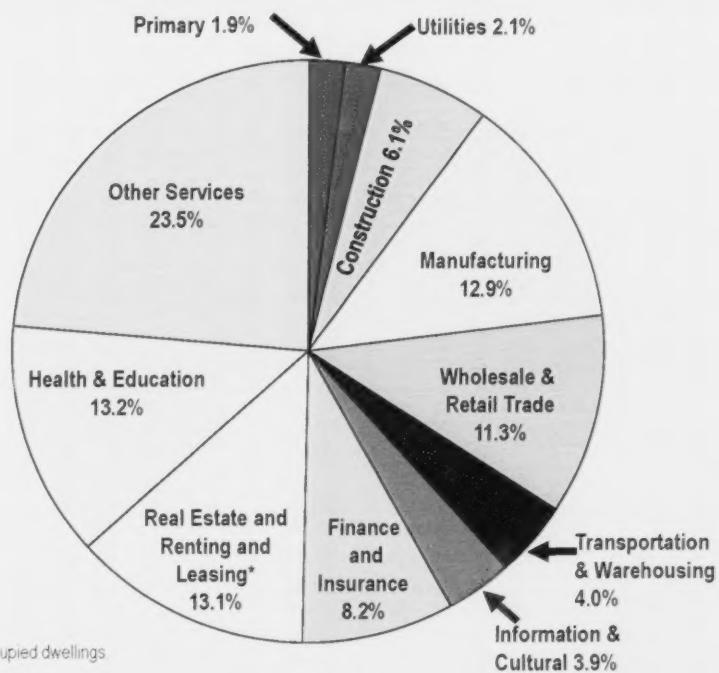

Output in the arts, entertainment and recreation sector dropped sharply by 5.8% in the fourth quarter, in part due to labour disruptions in the National Hockey League.
